# Screenshot - Git Repository

The screenshot shows a Git repository interface with the main branch selected. The commit history is displayed in two sections: commits on June 14, 2021, and commits on May 27, 2021.

**Commits on Jun 14, 2021:**

- Add files via upload  
donline-26 committed 42 minutes ago

**Commits on May 27, 2021:**

- Merge pull request #10 from donline-26/Recetario  
donline-26 committed 18 days ago
- Add files via upload  
donline-26 committed 18 days ago
- Delete recetario.pdf  
donline-26 committed 18 days ago
- Merge pull request #9 from donline-26/Recetario  
donline-26 committed 18 days ago
- Add files via upload  
donline-26 committed 18 days ago
- Merge pull request #8 from donline-26/Recetario  
donline-26 committed 18 days ago
- Add files via upload  
donline-26 committed 18 days ago
- Merge pull request #7 from donline-26/Recetario

Each commit includes a "Verified" button, a copy icon, a commit hash (e.g., 11ea26b), and a "diff" icon.

Recipe Name : biriyani 

1 cup boiled basmati rice 1/2 teaspoon mint leaves salt as required 2 tablespoon refined oil 3 green cardamom 2 clove 2 onion 1 teaspoon turmeric 1 tablespoon garlic paste 1 cup hung curd 2 tablespoon coriander leaves water as required 1 tablespoon ghee

**Video**

**Reccipe**

The name biryani itself brings water in your mouth. It's a one-pot meat that can fill your stomach itself and it doesn't need any side dish, however, many enjoy biryani with mirchi ka salan and raita. Biryani is an epitome of Mughlai cuisine and over the years there have been several variations of this one dish. Here's one dish that defines the word biryani and based on which, the variations have taken place. Chicken Biryani is one of the most popular dishes that you can find across the world and it's loaded with various spices. It's an interesting combination of rice and meat, and if you put your heart into it, people will love it for sure. One of the best things about preparing biryani is that it has several layers resulting into different textures, flavours and colours. This biryani recipe is prepared using basmati rice, chicken thighs, Greek yoghurt or hung curd, onion, tomato, milk, saffron and a melange of whole and ground spices.

# Conclusion

- The project named "Recetario" is a website.
- This website is feasible for modification that may arrive in future.
- I believe the website will remain good for reasonable period of time.

Once again I thank those who helped us to make this project successful one.

- This website is developed in such a way that any further enhancement can be done with ease.
- Planning to add more functionalities like add cooking class, buy foods online.

*Thank You*
