# Introduction

- Recetario is a food recipe management system to display recipes in a wide variety of Categories.
- It is also allow user to post their favourite recipes, rate recipes, add comment and participate different events that conducted by admin related by the topic.
- Public can also view and add comments and also can participate the events that conducted with certain charges.
- Admin has a facility to translate a recipe from user into many languages by using machine learning.

## Existing System

- The present system is all about manually displaying or publishing the cookie recipes.
- If they want to know about any new items then they used to search books,articles,newspaper and ask others.
- As these will be manually and people use to face difficultly in sharing their information.
- The sharing of the cookie items makes the problems for common people ,business ,hotels also.

# Proposed System

- The proposed one the solution for common people, business and hotels also.
- The Cooking Recipe Management System is the website will be hosted in internet.
- So a user or visitor can visit the website check for the recipes and search for the recipes and even he can add recipes to the websites also.
- The recipes which are added to the websites are store in database.

# Module Description

## Admin

- Admin the person who maintains the website that means he can add or delete the recipe or even he can modify the recipe.
- In the admin will add the categories and articles which will be displayed in the website.
- Admin can conduct events related to food recipes and give prizes to the winners.
- admin can Views the feedbacks from users.
- Admin has a facility to translate a recipe from user into many languages by using machine learning.

# Module Description

## User

- It is also allow user to post their favourite recipes, rate recipes and participate different events that conducted by admin related by the topic.
- User can modify or remove any submitted recipes by using a secured admin area.

# Product Backlog

No	As a ....	I want to be able to	So that I can	Priority	Status

## Screenshot - Translation

[40] translator.start()

☞ Give in an English sentence. :)

he likes banana

उसे पसंद पसंद था।

she likes peach

वह आड़ू पसंद पसंद है।

i like grape

मुझे अंगूर पसंद है।

she is driving white truck

वह नए सफेद ट्रक को चला रही है।

# Conclusion

- From this website can solve the issue which are existing in the previous time.
- By these website are going to make or bring different kind of food items in one place and make the user to share their knowledge to other and know about the different food items.

*Thank You*
